

DLS FLATSUB MIDI NEW COLOR WHITE HIGH GLOSS

The Flatsub Midi is an active sub designed to hang on the wall, but can also be placed on the floor, for example under a sofa. This subwoofer has the subwoofer mounted on the back side, invisible for the listener, the front is just flat.

The Flatsub Midi matches all DLS Flatbox speaker models speakers superbly. Thanks to the variable volume level, the the low-pass filter along with the phase shift control, you can adapt it to any listening environment and any speaker setup.

The amplifier has no high level input, but both RCA in & out connectors. Available in white silk and white and black high gloss finish.

Power supply: 115/230 V AC switch
